the census party, a branch of the Tenth census, formed under Professor Spencer F. tisan objects, Democratic congressmen frequently complain of the great difficulty and is the fruitful source of crime Baird and Superintendent Walker, for collecting data relating to the history and present condition of American fisheries, will leave here for Newport, where the F-sh Commissioners' steamer Fishhawk (will winter. These special census agents, in the early allotment of the work of supervisors, were selected because of their knowledge of, and experience in, this branch of the inquiry, and have already furnished important and interesting facts on the subject. which are to be embodied in Professor Baird's annual report. The report will include imports and exports of fish and fish products from 1820 to the present year, beides foreign shipments. Professor Baird has prepared a few of these tables, one of which exhibits the growth of the oyster export trade from \$85,089 in 1862 to guidance it was issued. \$453,306 in 1879.

FISHERY-CENSUS COMMISSION.

The work of the Fishery-Census Commission is divided into separate sections, as follows: Mr. R. E. Earli, formerly in charge of the propagating department of the United States Fish Commission, has S. T. Waiker and Ludwig Kumlein, naturalists, have charge of the Gulf coast; D. S. Jordan will report on the sea-tisheries of the Pacific coast; Fish-Commissioner C. G. Atkins, of Maine, has charge of the rivers in his State; Colonel Marshall McDonald is in charge of the Virginia and southern rivers, including the Potemac; Mr. Ernest Ingerports of New York and Boston respec-

SPANISH MACKEREL.

Among the important discoveries made ing, found that the lower part of Clesa-peake bay, knewn as Mobjack bay, was the place, and June the time. Next June the Fishhawk will be taken to the spot, and Fishhawk will be taken to the spot, and Fishhawk will be taken to the spot, and with her improved apparatus take up a quantity of the eggs, which will be hatched on board, and subsequently distributed in favorable localities. If the young fish surthe spot where they first saw light is de-

or desirable for consumption. In the last cursus only a few lines, and those containing erroneous, dain, were given concerning ing erroneous data, were given concerning the fish industries. Had the inquiry now being presecuted been started then the present labor would have been very materially lessened and the payment of the \$5,500,000 Mount Winans says that a large number of the privilege of fishing off the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the payment of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of the \$5,500,000 Mount Winans says that a large number of CAPTAIN HOWGATE AND GENERAL MYER.

It is quite generally stated here that the responsibility for the obstacles thrown in steamer Gulnare, which resulted in the refusal of the Government to accept her for cased was a married man and the lather of two children, aged three and five years suspiction on the part of his superior officer, who feared that he would not receive the lion's share of whatever credit there years ago, and took up his residence in cast Twenty-third street, near Second interested himself sufficiently to have the ship condemned. Those who know General Myer's disposition are included in the story is substantially and not agree, and the former was forced bank to helieve that this story is substantial to helieve that this story is substantial to helieve that the story is substantial to helieve the stantial the former was forced to the father of two children, aged three and five years ago, and took up his residence in two children, aged three and five years ago, and took up his residence in two children, aged three and five years ago, and took up his residence in two children, aged three and five years ago, and took up his residence in two children, aged three and five years ago, and took up his residence in two children, aged three and five years ago, and took up his residence in two children, aged three and five years ago, and took up his residence in two children, aged three and five years ag ber of special telegrams concerning it were thod of aggravating Bubach,
